

Amendments to the Claims

1-123. (canceled)

124. (previously presented) An isolated polypeptide comprising:

- (a) the amino acid sequence of the polypeptide of SEQ ID NO:229;
- (b) the amino acid sequence of the polypeptide of SEQ ID NO:229, lacking its associated signal peptide; or
- (c) the amino acid sequence of the polypeptide encoded by the full-length coding sequence of the cDNA deposited under ATCC accession number 203110.

125. The isolated polypeptide of Claim 124 comprising the amino acid sequence of the polypeptide of SEQ ID NO:229.

126. The isolated polypeptide of Claim 124 comprising the amino acid sequence of the polypeptide of SEQ ID NO:229, lacking its associated signal peptide.

127-128. (cancelled)

129. (previously presented) The isolated polypeptide of Claim 124 comprising the amino acid sequence of the polypeptide encoded by the full-length coding sequence of the cDNA deposited under ATCC accession number 203110.

130. (previously presented) A chimeric polypeptide comprising a polypeptide according to Claim 124 fused to a heterologous polypeptide.

131. (previously presented) The chimeric polypeptide of Claim 130, wherein said heterologous polypeptide is an epitope tag or an Fc region of an immunoglobulin.

132. (currently amended) An isolated polypeptide comprising an amino acid sequence having at least 95% amino acid sequence identity to:

- (a) the amino acid sequence of the polypeptide of SEQ ID NO:229;

(b) the amino acid sequence of the polypeptide of SEQ ID NO:229, lacking its associated signal peptide; or

(c) the amino acid sequence of the polypeptide encoded by the full-length coding sequence of the cDNA deposited under ATCC accession number 203110;

~~wherein, the nucleic acid encoding said polypeptide is amplified in adenocarcinomas or squamous cell carcinomas of the lung or in adenocarcinomas of the colon.~~

133. (currently amended) An isolated polypeptide comprising an amino acid sequence having at least 99% amino acid sequence identity to:

(a) the amino acid sequence of the polypeptide of SEQ ID NO:229;

(b) the amino acid sequence of the polypeptide of SEQ ID NO:229, lacking its associated signal peptide; or

(c) the amino acid sequence of the polypeptide encoded by the full-length coding sequence of the cDNA deposited under ATCC accession number 203110;

~~wherein, the nucleic acid encoding said polypeptide is amplified in adenocarcinomas or squamous cell carcinomas of the lung or in adenocarcinomas of the colon.~~
